

LAMILUX Composites at the Caravan Salon Düsseldorf 2025

## **LAMILUX presents GRP Solutions for the Caravaning Market**

With a well-thought-out surface concept based on glass-fibre-reinforced plastic (GRP), LAMILUX Composites offers comprehensive, functional, and design-oriented solutions for outfitting caravans and motorhomes. Products like LAMILUX LAMIGraph, LAMILUX LAMIfamtex, LAMILUX CompositeFloor, LAMILUX LAMImatrix, LAMILUX DualStructure, and the revolutionary LAMILUX SUNSATIION® for exterior walls form a harmoniously coordinated complete system – from walls and ceilings to floors and exterior surfaces. The portfolio is complemented by the design options LAMILUX DualColor and LAMILUX ColorSplit, enabling efficient implementation of individual color concepts in series production.

### **Meet LAMILUX at the Caravan Salon Düsseldorf**

LAMILUX Composites will showcase its innovations from **August 29 to September 7, 2025**, at the **Caravan Salon Düsseldorf** – the world's leading trade fair for motorhomes and caravans. Visit us in **Hall 13, Booth A85** and experience our latest GRP solutions for the caravaning sector up close.

We look forward to presenting our newest design surfaces, functionalities, and customization options to you in person. Discover the wide range of applications and the benefits for both manufacturers and end users!

## **LAMILUX SUNSATIION® – The revolution in UV and Weather resistance**

### Product Description:

LAMILUX SUNSATIION® is the latest generation of high-performance GRP surfaces for exterior use. With up to 20 times greater UV and weather resistance compared to standard gelcoat systems, SUNSATIION® guarantees permanently brilliant color surfaces – even under extreme conditions. Its dirt-repellent, easy-care surface combines maximum functionality with top-class design.

### Features:

- Up to 20x higher UV and weather resistance
- Brilliant, long-lasting colors
- Dirt-repellent, scratch-resistant, and easy to clean
- High mechanical durability
- Suitable for exterior use on caravans, motorhomes, commercial vehicles, construction machinery, etc.

### Customer Benefits:

- For manufacturers: Lower maintenance, long-lasting appearance, premium quality for mass production
- For end users: Shine like on day one, minimal maintenance effort, long-term value retention

## **LAMILUX LAMIGraph – Decorative variety with technical power**

### Product Description:

LAMILUX LAMIGraph is a decorative GRP surface designed for high-quality wall cladding in the caravanning sector. It impresses with realistic wood, stone, or fantasy decors, combining appealing design with the technical resilience of glass-fibre-reinforced plastic.

### Features:

- High-quality decors with realistic depth effect
- Scratch- and impact-resistant, moisture-resistant, easy to clean
- Custom colors and designs possible
- Formats: rolls and sheets up to 2.15 m wide, thicknesses from 1.0 to 3.0 mm

### Customer Benefits:

- For manufacturers: Simplified processing, reduced waste, seamless large surfaces
- For end users: Durable, visually appealing walls with easy cleaning

### Contact person:

## **LAMILUX LAMifoamtex – Comfort meets lightweight construction**

### Product Description:

LAMILUX LAMifoamtex is an innovative GRP surface with a soft touch, combining textile-like appeal with technical robustness. Its sound-absorbing, impact-resistant properties make it ideal for ceiling and wall applications in recreational vehicle interiors.

### Features:

- Soft-touch, textile-like surface
- Impact-resistant and sound-dampening
- Available in various colors, textures, and thicknesses
- Formats: roll goods up to 2.6 m wide, carrier thickness up to 1.5 mm

### Customer Benefits:

- For manufacturers: Quick, seamless installation of large areas without lamination
- For end users: Homely atmosphere, tangible comfort, and improved acoustics

### Contact person:

LAMILUX Composites GmbH

## **LAMILUX CompositeFloor – The durable flooring specialist**

### Product Description:

LAMILUX CompositeFloor is a GRP-based sandwich floor covering designed for high mechanical loads in mobile applications. Its odour-free PVC-GRP composite structure is dimensionally stable, lightweight, and moisture-resistant – ideal for motorhome and caravan floors.

### Features:

- 3-in-1 material with integrated PVC decorative layer
- Compression- and flexurally rigid thanks to GRP sandwich structure
- Water-resistant, completely odour-free, and dimensionally stable
- Reduces overall vehicle weight
- Formats: rolls or sheets up to 2.8 m wide, GRP thicknesses of 1.1 or 1.4 mm

### Customer Benefits:

- For manufacturers: Dimensional accuracy, efficient processing, easy integration into existing production lines
- For end users: Odour-free comfort, noticeable weight savings, more payload, cosy ambience

### Contact person:

LAMILUX Composites GmbH  
Markus Bächer  
Marketing  
Zehstraße 2, 95111 Rehau

## **LAMILUX LAMlstructure – Where design meets functionality**

### Product Description:

LAMILUX LAMlstructure is an innovative composite material combining technological sophistication with high design quality. Its directly embossed surface texture provides a premium tactile and visual appeal, while the robust, easy-care finish sets new standards for modern RV interiors.

### Features:

- Directly embossed surface texture
- Thicknesses from 0.8 mm to 3 mm
- Available up to 2.16 m wide
- Available in almost all qualities without gelcoat
- Wide color range: RAL, NCS, and custom colors
- Suitable for caravan, bus, prefab, and modular applications

### Customer Benefits:

- For manufacturers: Shorter production processes, design variety, weight savings, high stability
- For end users: Premium look, easy to clean, waterproof, scratch- and wear-resistant

### Contact person:

LAMILUX Composites GmbH  
Markus Bächer  
Marketing  
Zehstraße 2, 95111 Rehau

e-Mail: markus.baecher@lamilux.de

## **LAMILUX DualStructure – Structure and color reimagined**

### Product Description:

LAMILUX DualStructure combines structured and smooth surfaces within a single material for the first time. The structured area (up to 1.36 m wide) is separated by a subtle, visible smooth dividing line, offering new creative possibilities for exterior applications.

### Features:

- Structured strip up to 1.36 m, total width up to 3.20 m
- Asymmetrical design possible
- Available in various GRP qualities
- Numerous color combinations available

### Customer Benefits:

- For manufacturers: Unique design element, market exclusivity, high integration of design and function
- For end users: Innovative look, durability, comfort through thoughtful functionality

### Contact person:

LAMILUX Composites GmbH  
Markus Bächer  
Marketing  
Zehstraße 2, 95111 Rehau

Tel.: 09283/595-1622  
e-Mail: markus.baecher@lamilux.de

## **LAMILUX DualColor & ColorSplit – Customization without extra effort**

### Product Description:

LAMILUX DualColor enables GRP surfaces to feature two different colors – ideal for targeted use in interior and exterior areas.

LAMILUX ColorSplit allows for the integration of multi-colored design zones directly into the laminate – for example, to visually separate functional areas (e.g., kitchen/sleeping zones) or accentuate brand identities.

### Customer Benefits:

- For manufacturers: No additional lamination or painting needed – serial production ready
- For end users: Brand-consistent design, visual separation, premium appearance, integrated color design without film technology

### Contact person:
