

11 new online presentations on GRP

LAMILUX Academy webinars enter a new round

For the third consecutive year, the instructive webinars of the LAMILUX Academy will be starting again on 28 February 2023. Those interested have the opportunity to find out about GRP solutions from LAMILUX Composites in a total of 11 different online presentations throughout the year. Besides product innovations and industry-specific knowledge, the GRP experts will also provide participants with useful information on the processing and handling of glass fibre-reinforced plastics.

Each webinar has a specific focus, presented in an easily understood manner. This year, experts from various LAMILUX Composites departments could once again be confirmed as speakers.

Participants can look forward to the following LAMILUX Academy webinars:

Modern materials for the bus industry: attractive, lightweight, useful and robust

Tuesday 28.02.2023 - 10:00

Speaker Axel Gläsel explains which fields of application are suitable for the use of GRP in buses, which LAMILUX products are used in the bus industry and what advantages LAMILUX GRP has in this sector.

The lightest and strongest tank cladding in the world

Thursday 16.03.2023 - 10:00

This webinar is all about GRP in the tank container industry. Speaker Sascha Oswald shows which fields of application are suitable for the use of GRP and what advantages these bring.

Small materials science: metals, plastics and composites

Thursday 06.04.2023 - 10:00

Speaker Sascha Oswald talks about the historical development of glass fibre-reinforced plastics, their advantages, material properties and typical fields of application in the webinar on small materials science.

Lightweight construction, functional integration and robustness: modern materials for the commercial vehicle industry

Tuesday 09.05.2023 - 10:00

In this webinar, speaker Jörn Müller explains which fields of application are suitable for the use of GRP in commercial vehicles, which LAMILUX products are used in the commercial vehicle industry and what advantages they provide.

Tips for the optimal processing and handling of glass-fibre reinforced plastic (GRP)

Thursday 29.06.2023 - 10:00

What is GRP and what properties does it have? How can GRP be further processed? How is GRP cleaned and maintained? What do you need to bear in mind when processing GRP? Speaker Daniel Hauenstein answers all these questions.

Modern materials for the caravan industry: attractive, lightweight, useful and robust

Tuesday 25.07.2023 - 10:00

Attention all motorhome enthusiasts: this webinar is all about GRP in the caravan industry. Speaker Dimitri Knaus shows which fields of application in caravans are suitable for the use of GRP, which LAMILUX products are used and what advantages LAMILUX GRP offers in the caravan industry.

New look and maximum value retention even after many years – the latest generation of motorhome side walls

Tuesday 19.09.2023 - 10:00

This webinar is all about an absolute world first: LAMILUX SUNSATIION®. Speaker Sascha Oswald explains where LAMILUX SUNSATIION® is used and what advantages LAMILUX SUNSATIION® offers.

Modular constructions with composite materials

Tuesday 17.10.2023 - 10:00

Contact for the editorial office:

LAMILUX Heinrich Strunz GmbH
Pamela Kemnitzer
Corporate Communication Manager
Zehstraße 2, 95111 Rehau

Phone.: 09283/595-270
e-Mail: pamela.kemnitzer@lamilux.de

Which fields of application in modular and mobile units are suitable for the use of GRP and what advantages does LAMILUX GRP offer for modular and mobile units? In this webinar, speaker Axel Gläsel answers all these questions.

Hygienic surfaces for the food and medical industry

Tuesday 07.11.2023 - 10:00

In this webinar, speaker Sascha Oswald talks about the hygienic advantages of GRP and in which hygiene-sensitive areas glass fibre-reinforced plastics are used.

Composite materials with "More-in-1 function" and how you can benefit

Tuesday 12.12.2023 - 10:00

Speaker Stefanie Otto explains in her online presentation what LAMILUX "More-in-1" products are and what their added value is. She also shows where "More-In-1" products are used.

Lightweight construction in transport logistics

Tuesday 23.01.2024 - 10:00

The last webinar in this series answers the following questions: Which fields of application are suitable for the use of GRP? Which LAMILUX products are particularly used for lightweight construction? What advantages does LAMILUX GRP offer in the field of lightweight construction? The speaker in this online presentation is Sascha Oswald.
