

Day care centre, Wiggensbach (Germany)

## Short Info

City / Country:	Wiggensbach, Germany
Year:	2018
Object type:	Day care centre
Solutions:	LAMILUX Glass Roof PR60

After 9 months of construction, the 1,650 square metre site offers enough space for the little ones to let off steam. The aim was to create a design that is close to nature and to pay the best possible attention to sustainability. To create a natural lighting, the planners decided on two LAMILUX Glass Roofs PR60. These daylight systems now adorn the play corridor. They measure 2.8 by 6.8 meters and each have five glass surfaces. They allow friendly daylight into the building and create an exciting spatial effect.
